

The fourth letter from Estonia!

Our school is over. On Monday, 04. June children got their report. It was last day our sixth class, because they finished our school and they are going to next school.

Spring is the time for making summaries. All children, who ten years old and want to ride a bicycle can/must do cycling test at school. They study hard, but everybody did not pass the test.

Every spring we have a traditional Spring concert, and all parents come watch it. We can show, what we study during this year.

We have a trip to Vormsi island, where we were 2 days. We study Vormsi island nature and people life in this island.

Hurray! Our school is over. We like summer holidays.
